

Easy enough for a single operator. Tough enough to last a lifetime.

Precision engineering and rugged dependability make Timberwolf processors the choice of the pros! Each one is custom-built in our own plant using the most advanced features on the market today. See for yourself why Timberwolf processors are the best value in the business...

- Single Control Station for **easy, one-person operation.**
- **Patented, fast-clamping Top Roll System** rolls over knots and crooked logs and **holds tight where other systems lose their grip.**
- 4-, 6- and 8-way Wedges for **maximum production** — up to 3 1/2 cords an hour!
- **Super fast cut-off** with a Chain Saw driven by processor hydraulics.
- **Load a cord of wood or more** on our **heavy-duty tubular steel Live Decks.**
- Commercial Cylinders with oversized shafts for **top speed and splitting power.**
- **Built to last a lifetime!**
